

[RI]<sup>2</sup> Issue Selection & Early Planning Document

Possible Issue:

<b>I. Is the issue an SSI?</b>	What are the science ideas associated with the issue?	What are the societal (social, political, economic, and/or ethical) considerations associated with the issue?	
--------------------------------	---	---	---

<b>II. Is this a productive SSI for your class?</b>	<p>Are these science ideas consistent with your course standards (or other expectations)?</p> <p>What standards will be addressed?</p>	<p>Are the societal considerations developmentally appropriate for your students?</p> <p>Relevant and/or accessible?</p>	<p>Will your students be interested in this issue?</p> <p>If not, are there parallel or related issues that may be more compelling for your students?</p>
---	--	--	---

<b>III. What instructional moves are needed?</b>	What aspects of the underlying science may need to be simplified or backgrounded?	How will the issue be focused or scaled to achieve the intended learning outcomes?  Are local, national, or global themes emphasized?	Should authentic or hypothetical scenarios be featured?
